ABOUT OUR SERVICES

Novas - As an electrical and automation control systems integrator, we have been overcoming the challenges of water and wastewater facilities for more than 15 years. As your partner, we work with you to design, implement and integrate innovative solutions that meet your unique needs. Our commitment is to deliver cost effective, results based solutions that give you operational efficiency, reliability, ease of use and peace of mind. We appreciate the value of long-term business relationships, and have earned the trust of an extensive list of repeat customers who recognize the value of our service and quality workmanship.

SCOPE OF SUPPLY

- Cabinets: MSB, DB, MCC, LBP...
- Cables & ladder, trunking, support...
- Scada: PLC panel, Server, software, HMI, network ...
- Lighting, lightning, earth system...
- Engineering services: Design, installation, programming, test, commission, handover and maintenance

BENEFITS

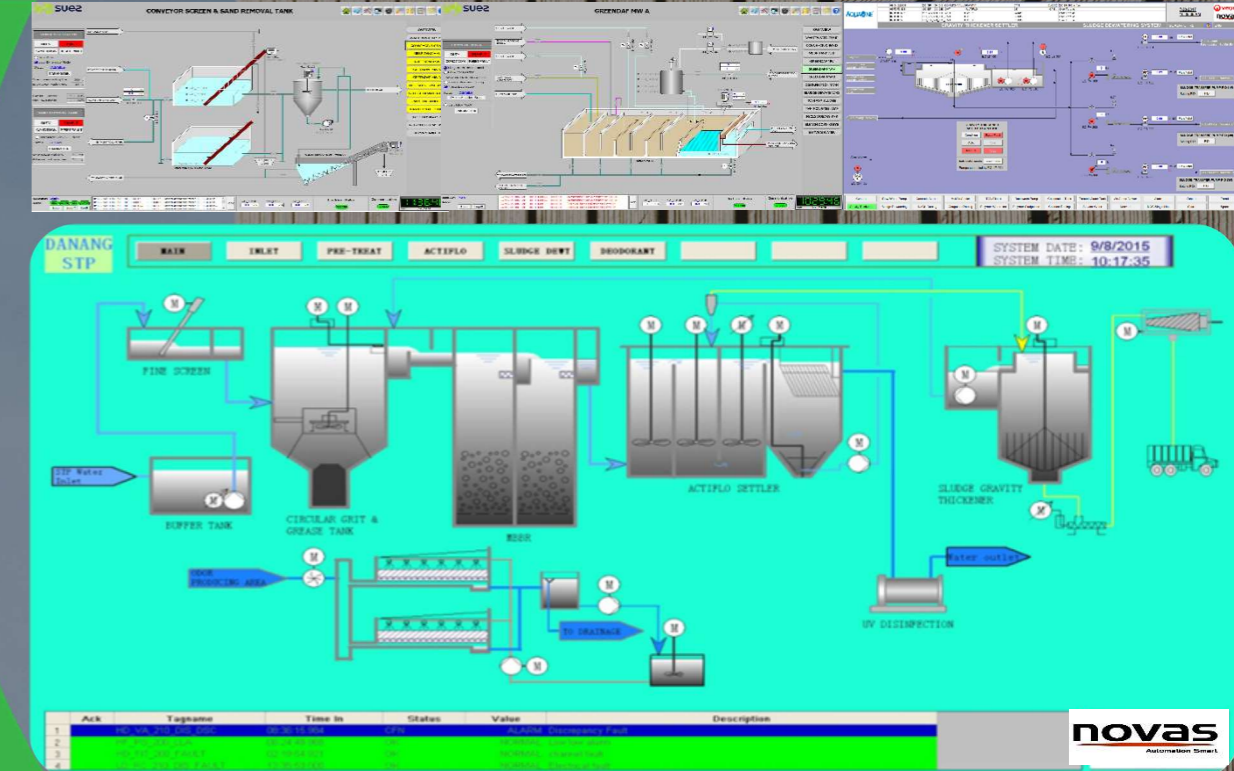

- Novas has done more 15 projects with world-leading contractors such as: Veolia, Suez, Strabag, Wabag, Kobelco, Aquaone...
- Professional staff with excellent skills
- Cost effective
- Free consultancy about control solution and technical support in 24 hours

APPLICATION

- ✓ Water Treatment Plants
- ✓ Waste Water Treatment Plants
- ✓ Flood Pump stations
- ✓ Internet Monitoring software
- ✓ Datalogger – monitoring flow and pressure on network
- ✓ Pressure Booster Stations

OUR CLIENTS

Project Owners or Main contractors for water and waste water projects

flexible solutions for your business needs

CAPABILITIES

CABINET & MCC

- FORM 3B, IP 42
- BLOKSET -
- Schneider license
- INVER TER - low harmonic <5% THDi

PLC & INVERTER

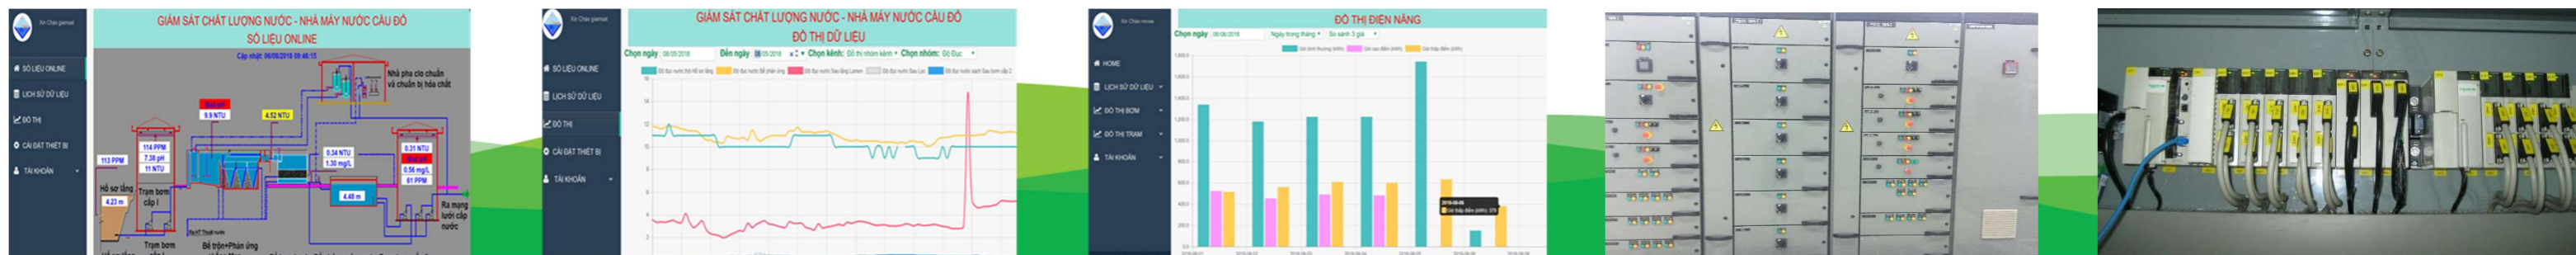

Our staff is fluent in the following hardware:

- Rockwell Automation
- Schneider electric
- Siemens
- Mitsubishi

SCADA (HMI & NETWORK)

We provide graphical, animated views of process data, alarm management, data logging and trending via platforms including:

- FactoryTalk View (RA)
- WinCC (Siemens)
- Intouch (Wonderware)
- IFix
- Vijeo Citect- (Schneider)

Novas's projects in Water and Waste water treatment Plant

novas

ITEM	PROJECT NAME	CAPACITY	OWRNER/ CLIENTS
1	Duong Water treatment plant, Gia Lam, Ha Noi city, Vietnam (phase 1B) - Design – Supply – Implementation of electrical and control system	150,000m3/Daynight	AQUAONE/ Strabag 2019 
2	Cau Do WTP – Danang city - Design – Supply – Implementation of electrical and control system	60,000m3/ Daynight	DAWACO/ AEC 2019 
3	Bosch WWTP – Long Thanh Industrial park, Dongnai Province, Vietnam - Supply – Implementation and programming of SCADA system		BOSCH 2019 
4	AQUAONE Haugiang – WTP, Haugiang Province, Vietnam - Design – Supply – Implementation of electrical and control system	100,000m3/ Daynight	AQUAONE/ Veolia 2017 
5	LAM SON WTP – Thanh Hoa province, Vietnam - Design – Supply – Implementation of electrical and control system	8,500m3/ Daynight	Veolia 2016 
6	VinaCapital WTP 3000M3 and WWPT 2,000M3 Danang City - Implementation, test and commissioning of electrical and control system	3,000M3 / 2,000M3	Veolia 2015 
7	Duong Water treatment plant, Gia Lam, Ha Noi city (phase 1A) - Implementation, test and commissioning of electrical and control system	150,000m3/Daynight	AQUAONE/ Wabag 2018 
8	Banmethuot WWPT, Banmethuot city, Daklak province, Vietnam - Design – Supply – Implementation of electrical and control system	14,000M3/ Daynight	Veolia 2017 
9	HANACANS WWTP, Quangnam Province, Vietnam - Design – Supply – Implementation of electrical and control system	300m3/ Daynight	HANACANS/ KOBELCO 2017 
10	Hagiang WWPT, Hagiang province, Vietnam - Control system – Programing – Test – commissioning	3000M3/ Daynight	Suez 2020 

11	Dawaco – CauDo WTP, Danang city, Vietnam - Upgrading Electrical and Scada system - Internet monitoring software: plant, network pressure and flow	120,000m3/daynight	Dawaco 2018	
12	CP Hue WWTP, Hue city, Vietnam - Design – Supply – Implementation of electrical and control system	1,200m3/Daynight	CP Hue/ Duong Nhat 2015	
13	Hoa Trung WPT, Danang city, Vietnam - Design – Supply – Implementation of electrical and control system	10,000M3/ Daynight	AEC 2019	
14	Danang WWTP, Danang city, Vietnam: WW Pump stations (30) and Flood Pump station (03) and Scada system - Design – Supply – Implementation of electrical and control system	30 pump stations, SCADA system	Danang Government 2017	
15	ITG-Phongphu WWPT, Danang city, Vietnam - Design – Supply – Implementation of electrical and control system	5,000M3/ Daynight	ASIA Tech 2012	
16	Dawaco – Sanbay WTP, Danang city, Vietnam - Upgrading Electrical and Scada system - Internet monitoring software: production operation, network pressure and flow	30,000m3/Daynight	DAWACO 2016
